

## Master of Food Science and Technology (MFoodScTech)

### Master of Food Science and Technology (MFoodScTech)

Program Code: 5576

Duration Options:

2 year duration (32 units of study)

1.5 year duration (24 units of study and 8 units for prior learning)

Entry Requirements: Please refer to [MFoodSc&Tech](#) future students page

### Key Program Information

- This program offers students the option to complete a Professional Experience Industry Placement.
- This program offers students the option to complete a full-time semester Research Project.
- Students are able to complete both Professional Experience Industry Placement and a full-time semester Research Project and will need to plan their studies carefully to allow room in the program for both options.
- Students will need to follow the appropriate study plan options below depending on the pathway they choose:
  - Option A: Two Research Courses (2 units per course; 4 units total) without Professional Experience Industry Placement
  - Option B: Two Research Courses (2 units per course; 4 units total) and Professional Experience Industry Placement (8 units, one semester)
  - Option C: Research Project (8 units) without Professional Experience Industry Placement
  - Option D: Research Project (8 units) and Professional Experience Industry Placement (8 units, one semester)
  - Option E: Two Research Projects (8 units per course; 16 units total) – without Professional Experience Industry Placement
- Some courses in this program may contain enrolment restrictions requiring permission from the Head of School or other approvals. Students are required to email the [School of Agriculture and Food Sustainability](#) to gain approval for restricted courses before they can enrol on SI-Net.

### Important Notes

The information contained in this document is intended as general advice only.

Students must follow the program rules & requirements listed on the [Programs and Courses Website](#). This planner must be used in conjunction with your program duration course list and program rules.

Students need to check the prerequisites, incompatibilities and restrictions for all courses they select in their study plan. Future course offerings are subject to change.

This document is not intended as a progression or graduation check. For further information on progression or graduation checks, please contact your school.

## Frequently Asked Questions (FAQ)

### What is a prerequisite?

Please refer to: [What does 'prerequisite' mean in a course profile?](#)

### What is a course profile?

Please refer to: [What is a course profile?](#)

### Where can I find the electronic course profile (ECP)?

Please refer to: [Where do I find the electronic course profile \(ECP\) for my course?](#)

### Where can I find the course coordinator?

The course coordinator can be found on the electronic course profile (ECP). Please refer to question "Where can I find the electronic course profile (ECP)?".

### Can I study this program part-time?

International students on a student visa must study this program full-time, as per their visa conditions.

Domestic students may choose to complete the program part-time. Part-time students are required to develop their own study plan, however, if you would like assistance with this, please contact the [School of Agriculture and Food Sustainability](#).

### Can I study the Master of Food Science and Technology online?

No, this program requires mandatory in person attendance at the University of Queensland St Lucia campus.

### What is recognised prior learning or reduced duration credit?

Students commencing the Masters program with a relevant background may be eligible to enter a shorter duration program. These students may be eligible to enter a shorter duration program as they do not need to complete the foundational or background courses as they have covered this background content in their prior studies.

Students who are eligible to complete a reduced duration program are granted recognised prior learning. The unit value for prior learning is posted to a students account and, in conjunction with their studies, makes up the total unit value required for the program.

Students can review the [entry requirements](#) of the program to determine if they may be eligible for recognised prior learning, and apply via an [online application](#) (be sure to state recognised prior learning), or contact the [Faculty of Science](#) for further advice.

### What are the key semester dates for study in this program?

Please refer to the [Academic Calendar](#) for key dates throughout the year.

### How do I enrol in courses?

Please refer to [Enrolment and class allocation](#) for detailed instructions on enrolling in courses for the upcoming semester.

## How can I find out when my classes will be on?

Students can view the [2024 Public Timetable](#) online to see what the available classes will be on offer for the upcoming semester. Please see the question below for student's personal timetable.

## How do I select my class times?

When the timetabling system is open for students to preference their classes, they can use the Timetable system via their [my.UQ dashboard](#). Please refer to [Enrolment and class allocation](#).
