

Plan your BAdvSc(Hons) degree!

A BAdvSc(Hons) degree requires 64 units of study built from five different categories of courses, as below.

Category	BAdvSc(Hons) Core Courses	Level 1 Prerequisite Courses	Major	Additional Courses	Field of Study
Units	6 units (3 courses)	0–4 units depending on your major	16 units (8 courses)	22–26 units	16 units (Research)
Description	You must take: <ul style="list-style-type: none"> • SCIE1100 • SCIE1200 • STAT1201 or STAT1301 (the advanced version) 	You must take: <ul style="list-style-type: none"> • the prerequisite courses for each major you wish to complete • these will usually be one or two Level 1 courses 	You must take at least one major. It will comprise: <ul style="list-style-type: none"> • one Level 1 course • three Level 2 courses • four Level 3 courses 	As long as you satisfy the advanced course requirement (see 'Important' below), you can choose: <ul style="list-style-type: none"> • a second major (16 units + level 1 prerequisites) • one or more minors (8 units each) • elective courses from the BAdvSc(Hons) course list • up to 16 units of non-Science courses from the BAdvSc(Hons) program requirements or from any other program you are eligible to take. 	This is taken in your final year and will be in a discipline area of your choice. It usually follows from a major you have completed.

Important!

You must complete ≥ 4 units at Level 2 or higher and ≥ 2 units at Level 3 of “advanced courses”.

You must not complete > 20 units at Level 1.

A full listing of the rules and courses is available [here](#). Take care to use the rules relevant to your start year. The [BAdvSc\(Hons\) study planner](#) may also help.

Unsure about what major(s) to take?

That's fine. You do not have to declare a major in 1st year unless you want to. It is often a good idea to use your first year of study to explore and learn what areas interest you. BUT be aware that most majors require up to two Level 1 prerequisite courses in addition to the Level 1 course that forms part of the major. Therefore, spend some time on the [program information site](#) looking into majors that interest you and ensure that you complete their prerequisite courses. This will help you keep your options open until 2nd year.

If you are interested in enrolling in multiple plans* that share courses in common, [this video](#) explains how to do so.
