

Master of Molecular Imaging Technology (MMIT)

Master of Molecular Imaging Technology (MMIT)

Program Code: 5692

Duration: 1.5 year duration (24 units of study)

Commencement:

Semester 1 (February)

Entry Requirements: Please refer to MMIT future students page

Key Program Information

- The program has a Semester 1 (February) commencement only.
- Some courses in this program may contain enrolment restrictions requiring permission from the
 Head of School or other approvals. Students are required to email the <u>School of Mathematics and</u>
 Physics to gain approval for restricted courses before they can enrol on SI-Net.

Important Notes

The information contained in this document is intended as general advice only.

Students must follow the program rules & requirements listed on the <u>Programs and Courses Website</u>. This planner must be used in conjunction with your program duration course list and program rules.

Students need to check the prerequisites, incompatibilities and restrictions for all courses they select in their study plan. Future course offerings are subject to change.

This document is not intended as a progression or graduation check. For further information on progression or graduation checks, please contact your school.

Further Assistance

Check out the Frequently Asked Questions (FAQ) page on this study planner document.

Master of Molecular Imaging Technology (MMIT) 1.5 year duration

Students must follow the program rules & requirements listed on the Programs and Courses Website.

Semester 1 commencement

Step 1 Start with the base study plan outlining Core Courses and Research Project Courses

Year 1				
٦. ٢	MOLI7101	MOLI7102	MOLI7109	MRES7100
1st Semester (Feb – Jun) Semester 1	Molecular Targets & Imaging Probes	Clinical Molecular Imaging	Radiotracer Based Imaging	Magnetic Resonance Imaging: Fundamentals
	2 units – Core Course	2 units – Core Course	2 units – Core Course	2 units – Core Course
2nd Semester (July – Nov) Semester 2	Option	Option	Option	Option
	2 units – Program Elective Course	2 units – Program Elective Course	2 units – Program Elective Course	2 units – Program Elective Course
3 rd Semester (Feb – Jun) Semester 1	Option	Option	Option	Option
	2 units – Research Project Course	2 units – Research Project Course	2 units – Research Project Course OR Program Elective Course	2 units – Program Elective Course

Step 2 Decide on your research project options. Students must complete one of the following options:

- 4 units MOLI7106 (completed in one semester, offered Semester 1 only)
- 6 unit MOLI Advanced Project course
 - students completing the course within one semester, enrol into MOLI7200 (Sem 1 only)
 - students completing the course over two semesters, enrol into MOLI7202 (Sem 2)

Step 3 Decide on your Program Elective Courses.

Check the course list for courses offered. Note that courses are only offered in certain semesters, and should you wish to take a course offered in a different semester than displayed on the study plan, you can do so, by changing it with one of your other courses.

Step 4

Check prerequisites, incompatibilities, and restrictions for all courses you have selected in your study plan. You can click on the course codes above or find the course on the course list. You may need to adjust courses in your study plan at this step.

Some courses in this program may contain enrolment restrictions requiring permission from the Head of School or other approvals. Students are required to email the School of Mathematics and Physics to gain approval for restricted courses before they can enrol on SI-Net.

Please refer to the MMIT course list for full course options.

Frequently Asked Questions (FAQ)

What is a prerequisite?

Please refer to: What does 'prerequisite' mean in a course profile?

What is a course profile?

Please refer to: What is a course profile?

Where can I find the electronic course profile (ECP)?

Please refer to: Where do I find the electronic course profile (ECP) for my course?

Where can I find the course coordinator?

The course coordinator can be found on the electronic course profile (ECP). Please refer to question "Where can I find the electronic course profile (ECP)?".

Can I study this program part-time?

International students on a student visa must study this program full-time, as per their visa conditions.

Domestic students may choose to complete the program part-time. Part-time students are required to develop their own study plan, however, if you would like assistance with this, please contact the School of Mathematics and Physics

Can I study the Master of Molecular Imaging Technology online?

Yes, this program has the option to be completed online for students who are unable to attend campus.

What are the key semester dates for study in this program?

Please refer to the Academic Calendar for key dates throughout the year.

How do I enrol in courses?

Please refer to Enrolment and class allocation for detailed instructions on enrolling in courses for the upcoming semester.

How can I find out when my classes will be on?

Students can view the <u>2023 Public Timetable</u> online to see what the available classes will be on offer for the upcoming semester. Please see the question below for student's personal timetable.

How do I select my class times?

When the timetabling system is open for students to preference their classes, they can use the Timetable system via their my.UQ dashboard. Please refer to Enrolment and class allocation.
