Welcome

to the Faculty of Science at The University of Queensland (UQ).

We are delighted that you have decided to study science at UQ. Attending university is an opportunity for you to expand your horizons and to develop skills and friendships which will benefit you throughout your life. We encourage you to take advantage of all that is offered though UQ’s vibrant community of academics, students and support staff.

This guide is designed to help you navigate your way through the transition to university life. We are also available to help you in person, by phone or by email. Find contact details at science.uq.edu.au, or on the back cover of this guide.

Parents, partners and friends’ event

You, your parents, partner and friends are invited to an information session to explain the resources and services available to students on campus, make everyone aware of important dates and deadlines, and discuss how family and friends can help students succeed both academically and outside the classroom.

The information session will be followed by refreshments, where you will have the opportunity to chat with current science students and staff.

Please join us at 4pm, Sunday 19 February at the UQ St Lucia campus. For further information and to RSVP, please visit: uq.edu.au/orientation from December 2016.

What do I need to do?

Here’s a checklist that we think is important for you to complete prior to the start of semester!

1. Head to uq.edu.au/startingatUQ
2. Access your first year planner
3. Choose your courses and enrol
4. Complete the Get Set Quiz (Compulsory)
5. Find out where and how to sign on to classes
6. Attend Orientation Week events
7. Induction Day (Compulsory)
8. Parents, Partners and Friends’ Event (Highly recommended)
9. Meet a Lecturer (Compulsory)
10. Read: ‘FAQs for First Year’
11. Check out: ‘Do you need help?’
12. Personal and Academic Help
13. Terminology Explained

Useful websites for getting started:
- uq.edu.au/startingatUQ
- planner.science.uq.edu.au
- uq.edu.au/student-services/learning
- uq.edu.au/myadvisor
- bit.ly/uquni101

Join us at a welcome event for parents, partners and friends at the UQ St Lucia campus.
Access your study planner, choose your courses and enrol

Visit uq.edu.au/startingatuq to access study planners, choose your courses and enrol. Below you’ll find some information to keep in mind.

- Courses are generally coded with 4 letters followed by 4 numbers. Courses with the code ‘1’ as the first number in the sequence are first level courses, so they are generally taken in first year e.g. BIOL1020. Similarly, courses which begin with 2 and 3 reflect the year in which they are normally taken.

- International students are expected to maintain a full enrolment of 4 courses per semester and must seek academic advice before reducing their enrolment load.

- Most domestic students do not need to maintain a full enrolment of 4 courses, and in certain situations (e.g. working, or returning to studies) it might be more prudent to study part-time. There may be different requirements for some students (e.g. scholarship holders or centrelink recipients), please check your eligibility carefully.

Need assistance with choosing your courses and enrolling?
- Visit planner.science.uq.edu.au
- Visit uq.edu.au/orientation to book an advice session in February
- Contact the Faculty of Science Student Enquiries Office. enquire@science.uq.edu.au or 07 3365 1888
- Drop in for enrolment and timetabling assistance, details page 7.

WARNING: Choosing courses requires careful planning
- DUAL DEGREES can be even trickier! Please seek help from an academic advisor
- Make sure you choose prerequisites for courses you want to do in future. Keep your options open in case you change your study plans. Some courses are only offered in one semester.

Do the Get Set Quiz

Meet friends, study, and access help from Peer Assistants in the Science Learning Centre (SLC), Priestley Building (67), Level 2.

Find out your strengths. Review the knowledge you need.

Students entering their first year of science at university bring different levels of knowledge and experience. The Get Set Quiz is designed to determine your understanding of key concepts in subjects you have studied at school. These concepts underpin your university studies. It is important for you and your lecturers to know your current level of understanding.

Your results in the Get Set Quiz are not used for assessment purposes.

Doing the Get Set Quiz can help you in a number of ways:
- An individual report is generated indicating where you may need to do some revision and directing you to relevant resources.
- The overall cohort knowledge is fed back to first year lecturers so they can tailor their lectures appropriately.
- You will become aware of the knowledge expectations for first year science and can revise accordingly and;
- You may also find that the information helps with selecting your courses.

1. Grab a pen and paper
2. Go to getset2.uqcloud.net/science
3. Log on using your UQ login and password and follow the prompts

74% of those who completed the 2015 Quiz passed all of their assessment in Semester 1.
1. How do I plan my course timetable?
   Go to uq.edu.au/startingatuq/sign-on-to-classes and follow the link to timetable planning. Use the timetable planner timetableplanner.app.uq.edu.au to help you.

2. What if my chosen sign-on class is full?
   a) Check course times for alternatives and/or seek further assistance at an enrolling and timetabling drop in session (see page 7).
   b) Email the course coordinator with your request (link at bottom of sign-on page). Ensure you include your name, student number, reasons for your request and possible alternatives. Try to provide at least two options.
   If all classes fill up, then further classes may be added. Check back regularly for updates.

3. Check your student emails regularly to ensure you are up to date with course sign-on dates/times.

Contact hours
Contact hours are the number of hours per week of attendance required in a course. The course timetable shows contact hours as a combination of letters and numbers:

   e.g. BIOL1020 2L1T 3P
   = 2hr of lectures + 1hr tutorial + 3hr of practical per week.

WARNING: not all classes are held every week. For example, some practical classes are scheduled only every second week, so be sure to check the dates!

Sessions
With over 1000 new students in science, we offer some classes more than once. In these cases, you need to choose:
   - One stream of lectures (L01 or L02 or L03 etc);
   - One tutorial group (T01, T02 or T03 etc); and
   - If applicable, one laboratory or practical group (P01, P02, or P03 etc).
   For example, for BIOL1020 you could choose:
      • L02 (Lecture stream 2)
      • P07 (Practical session 7)
      • T15 (Tutorial 15)

Need assistance with timetabling?
   > Drop in for enrolment and timetabling assistance. details page 7.

Class Sign-On

Attend Orientation Week events

Visit uq.edu.au/orientation to book your place.

Science Induction Day
(Compulsory)
   Attend a full day of activities designed to get you thinking like a scientist! Meet fellow students, lecturers and 2nd and 3rd year science students who will provide tips on surviving first year. Morning tea, lunch and afternoon tea are provided.

   For most science students, your induction day will be either Monday 20 February or Tuesday 21 February during Orientation Week. Students in the BAdvSc(Hons) and Dual BSc/LLB programs will attend an induction day on Friday 17 February.

Meet a Lecturer
(Compulsory)
   Attend an interview with an academic (lecturer), who will help you with any specific questions you may have and welcome you to UQ. Book your 15 minute interview for Wednesday 22 or Thursday 23 February.

Program-Specific Welcomes
(Compulsory)
   There are specific welcome events for some programs. Please check the Orientation Week website for details.

Faculty of Science Welcome Session for Students, Parents, Partners and Friends
(Compulsory)
   Invite your parents, partner and friends to a welcome event. Our welcome for family members will take place on Sunday 19 February. prior to Orientation Week. Commencing at 4pm, the information session will be followed by refreshments and the opportunity to ask questions of staff members and current students.

Faculty of Science Enrolling and Timetabling on mySI-net
(Compulsory)
   Drop in to receive personalised advice from an enrolment assistant from the Faculty of Science. Assistants can help you with course enrolments, timetabling and class sign-on processes.

   Assistants are generally available during Orientation Week. Check the website for dates and times.

Academic advice session
(Compulsory)
   Academic advisors are available to help you throughout the year by appointment. We recommend seeing an advisor early in Semester 1 to make sure you meet program requirements, and can keep your options open.

   Monday - Friday, 8.30am - 5pm
   Email enquire@science.uq.edu.au to book an appointment.
FAQs for First Year

Student email
Check your official student email daily to ensure you are up to date. UQ will only send emails to your official student email address. Always use your student email, not a personal email address, when contacting course coordinators.

Blackboard
Visit Blackboard (Learn UQ) regularly to check for course-related updates. learn.uq.edu.au. Your lecturers will use this to make announcements and post important information on assessment, and other course-related matters. Also referred to as eLearning, this is the course website.

Electronic Course Profile (ECP)
Every course on offer at UQ has an ECP. The ECP contains important information about course requirements, and must be read carefully. THIS IS VERY IMPORTANT. You can access a course specific ECP via Blackboard course sites or through uq.edu.au/study. By entering a specific course code into the search feature and following the links. The left hand menu contains detailed information about aims and objectives of the course, learning resources and activities and detailed information on assessment. For example there may be ‘hurdle requirements’ as part of the assessment, which must be met in order to pass the course.

What is the Science Learning Centre (SLC)?
The SLC is a dedicated space for students to study, meet their friends, have lunch and access peer academic support. It is located in Priestley Building (67), on Level 2.

What learning resources are available?
- ECP under ‘Learning Resources’
- Academic advisors at the Science Student Enquiries Office
- Course tutors
- SLC peer assistants (see below for details)
- Library assistance for IT Help, referencing and accessing databases library.uq.edu.au/help
- Learning workshops on how to get the most of your studies, tackle assignments and prepare for exams uq.edu.au/student-services/learning

I am taking a dual degree. Is there anything in particular I need to know?
Different faculties may have different rules and requirements. Check both.

Where can I access informal help if I’m struggling with course content?
- Visit the Student Learning Centre (SLC) at St Lucia to access discipline-specific SLC peer assistants. Assistants cover multiple science disciplines and are available Monday - Friday, 10am - 3pm during Weeks 3-13. Check the timetable on the plasma screen outside the SLC.
- Facebook groups for your courses

How can I contact the course coordinator?
Check the ECP or Blackboard for the most appropriate method of communication. Different courses use different methods - some courses have specific course email addresses, while others use discussion boards.

Where do I hand in my assignments?
Some submissions will be to the tutor; some online and some will need a cover sheet for submission. Read the ECP.

What if my assignment is late?
Please refer to the ECP for individual course procedures. There are different procedures for different courses and schools.

Do I need to have my own laptop?
It is very helpful, but not essential, to have your own laptop or other mobile device. The library has a bank of computers which you can access when on campus.

What calculator can I use?
For many science courses, you will need an approved non-programmable calculator for use in exams. For more details on approved calculator models uq.edu.au/myadvisor/exam-calculators

Do I have time for paid work?
We recommend <10hrs/wk paid work for full-time students. Although some students are able to balance moderate work schedules with study, many students struggle to keep up with their studies, especially in first year. You should plan on each course taking up about 10 hours of time per week.

What happens if I don’t turn up?
You will need to catch up. Talk to your peers and look on Blackboard for what you’ve missed. You can lose marks or even fail the course for not participating in compulsory activities. Contact your course coordinator for assistance.

The SLC is a dedicated space for students to study, meet their friends, have lunch and access peer academic support. It is located in Priestley Building (67), on Level 2.

What if my assessment is late?
If you get too far behind with your work, you might think about withdrawing. Be aware of important census dates.

What is the difference between the Student Centre and Student Services?
The Student Centre (JD Story Building, 61) handles all student administration and general enquiries relating to the university. Student Services (Building 21D) provides help with learning, disability and counselling support, and personal and academic welfare.

Semester 1 critical dates
27 February
- Classes commence
10 March
- Last day to add or substitute courses
31 March
- Last day to drop courses without financial liability* (Semester 1 census date)
30 April
- Last day to drop courses without academic penalty*

Save your money and don’t carry on with courses you have ‘given up on’.
You must formally withdraw:
> By the end of March so you aren’t charged for the course
> By the end of April so you don’t lower your Grade Point Average (GPA)
Do you need help?

Blackboard
learn.uq.edu.au

TERMIONALY EXPLAINED

Academic Record
There are two types of academic records: official and unofficial. The official academic record, called a ‘transcript’, is produced by the University’s Student Centre for a fee (a complimentary copy is provided to graduating students). The unofficial academic record, known as a ‘studies report’, can be printed from mySI-net.

AskIT
AskIT offers free computer help and training for UQ students and will assist you with the use of information technology in your studies. library.uq.edu.au/ask-it

Course list
The courses you have to pass in order to receive your degree. The Course list specifies compulsory and elective courses - uq.edu.au/study

Blackboard
UQ’s learning management system, also known as Learn UQ. Access via learn.uq.edu.au or my.UQ.edu.au under eLearning. Contains assessment information, announcements, updates, some assignment marks and discussion boards for each of your courses.

Course
Subject or class (e.g. SCIE1000, MATH1051).

Compulsory course
Course that you must take (e.g. STAT1210 for the BSc).

Discipline
Field of study or specialisation within your program.

Dual Degree or Dual Program
Combination of two UQ degrees taken at the same time. For example, the Bachelor of Science (BSc) can be taken with a Bachelor of Arts, Journalism, Business Management, Commerce, Economics, Information Technology, Mathematics, Music, Education (Secondary), Engineering, Laws, or Biomedical Science.

Dual major
Combination of two fields within science (e.g. computational science with a second major in chemistry).

Elective course
A course you choose to complete. If you are studying a BSc, you may choose electives from the BSc course list, or from any other course list offered at UQ.

Electronic Course Profile (ECP)
Also referred to as the Course Profile, the ECP contains information about individual courses including assessment requirements, contact hours, course coordinators and general information. See page 8 for more details.

Extended Major
Like a major, but with in-depth study. (e.g. BSc with an extended major in Marine Biology)

Grade Point Average (GPA)
The average of the grade of the results obtained by a student, weighted by the unit value of each course in which the student enrolled. GPA is determined on a semester basis.

Major
An area of specialised study within a program. A major may be referred to as a specialisation, discipline or plan. See uq.edu.au/study for further details of majors in science programs.

mySI-net
UQ’s online student enrolment system - sinet.uq.edu.au Enrol in courses and access your studies report.

Plan
mySI-net calls a discipline or major (e.g. Physics) a plan; you can declare your plan online.

Prerequisite
A level of knowledge and skill you must have before participating in a course (e.g. you must do MATH1050 or Maths C before you do MATH1051).

Program
Your program is the degree you are taking e.g. BMath, BBiotech (Hons) or BSc.

Units (#)
Most courses are 2 units (#2). A full time study load for a semester is #6 or more, so that’s 3 or 5 more courses. Most students do 4 courses, #8 in each semester. International students must do #8. To complete a 3 year program within the 3 years, students are required to do 4 courses per semester unless they opt into summer electives.

Still confused? Watch a video that explains Uni 101: bit.ly/uquni101
What is uni like? Here are some tips from our students...

- Each science course is about 10 hours of work each week - for four courses that’s a full time job!
- The library has lots of cool workshops and info on referencing - seek them out!
- Exams are pretty serious business - it’s almost impossible to cram everything into the night before an exam and still do fine. (Trust me, I’ve tried)
- Days at uni can be long but often with big breaks between classes.
- Time management is an art! Put together a semester and weekly schedule to help manage your time.
- Take the effort to make friends. There are great people around, but you need to put yourself ‘out there’.
- Carefully read the program rules for your particular program when you are putting together your study plan!
- Ask for help if needed, no question is too silly. People are waiting to help.
- Form study groups.
- Join facebook groups for your courses!
- You have a lot more freedom than at school.

Join a student club or society on Market Day. Science student societies include SUSS (Society of Undergraduate Science Students), PAIN (Physics Students Club), iROOS (Environmental Science students group) and MSS (Mathematics Student Society)

Emailing at UQ must be professional. Always include your full name, Student ID, program, and contact number.

Read dates carefully: prac can sometimes be fortnightly, not weekly.

Study abroad! Save some of your electives!

No one is going to chase you up to do your assignment - you have to find the motivation yourself. UQ St Lucia has a pharmacy, a newsagent, banks and lots of food outlets!

Check your student emails every day!

Figuring out assignment dates is your responsibility. Read the Electronic Course Profile (ECP) carefully!

Attend all your classes. You have a much better chance of success if you do.

The UQ Advantage Office is the place to go for info on study abroad, financial support and leadership programs.

If you have timetable clashes, don’t stress. It can usually be sorted fairly easily.

If you discover you don’t like the program you’ve enrolled in, changing degree programs once you’ve started is not a big deal.

You can heat up your lunch in the Science Learning Centre, meet friends, study, eat and drink!
Equity and Diversity

STUDENT SERVICES
Student Services provides help in the following areas:
- Disability Services
- Learning Advisors
- Counselling
- Making new friends and settling in to university
- Faith and spirituality
- International student support
- Accommodation

Visit Student Services at St Lucia, Monday - Friday, 8:00am - 5:00pm in Building 21D, opposite Boost Juice in the Union Complex area.

THE UQ ALLY PROGRAM
The UQ Ally Program is a network of staff who are supportive of lesbian, gay, bisexual, transgender and intersex staff and students.

THE STUDENT GRIEVANCE RESOLUTION POLICY
This policy outlines procedures for resolving a range of issues which may be of concern. If the grievance relates to discrimination, harassment or bullying, you can use the procedures outlined in the Discrimination and Harassment Policy and should also consider contacting a Discrimination and Harassment Contact Officer (DHCO). DHCOs are specially trained staff who provide information regarding these procedures.

If you feel that you would like further support, the UQ Union (Student Union) is also available to assist and advocate on your behalf.

THE STUDENT CHARTER
The Student Charter sets out the expectations you can hold for your education and outlines what is expected of you while studying.

All students and staff are entitled to work and study in an equitable environment, free of discrimination and harassment.
